Since PB4

- **The Global Programme continues to work in:**
 - MRV and Monitoring
 - Stakeholder Engagement
 - Multiple Benefits
- **Has launched 3 new work areas (funding by PB4):**
 - Governance
 - Payments and benefit sharing
 - Transformational strategies

MRV and Monitoring

- Backstopping of National Programmes
- Development of conceptual framework and technical guidance (following the strategy, i.e. robust systems that meet the requirements of C MRV, broader information needs for REDD+ policies, and monitoring of safeguards)
- Training to build capacity:
 - In collaboration with Brazil/INPE, GTZ, EPA, UNFCCC, CfRN and universities
- Convening space agencies and remote sensing initiatives towards standardized and available data
- 2nd workshop with Chatham House on monitoring governance

Guidelines for Free, Prior and Informed Consent (FPIC)

- **Consultative process** with Indigenous Peoples and CSOs
 - Asia (June) and Latin America (October); Africa (January 2011)
 - Open for public review before finalization in mid 2011
- **Challenges**: scale & awareness on REDD+ benefits
- **Results**: Increased understanding of FPIC and shared views and expertise by stakeholders
- Advanced, in practice, the *UN Human Rights Based Approach to Development Cooperation* and *UN Declaration of the Rights of Indigenous Peoples*

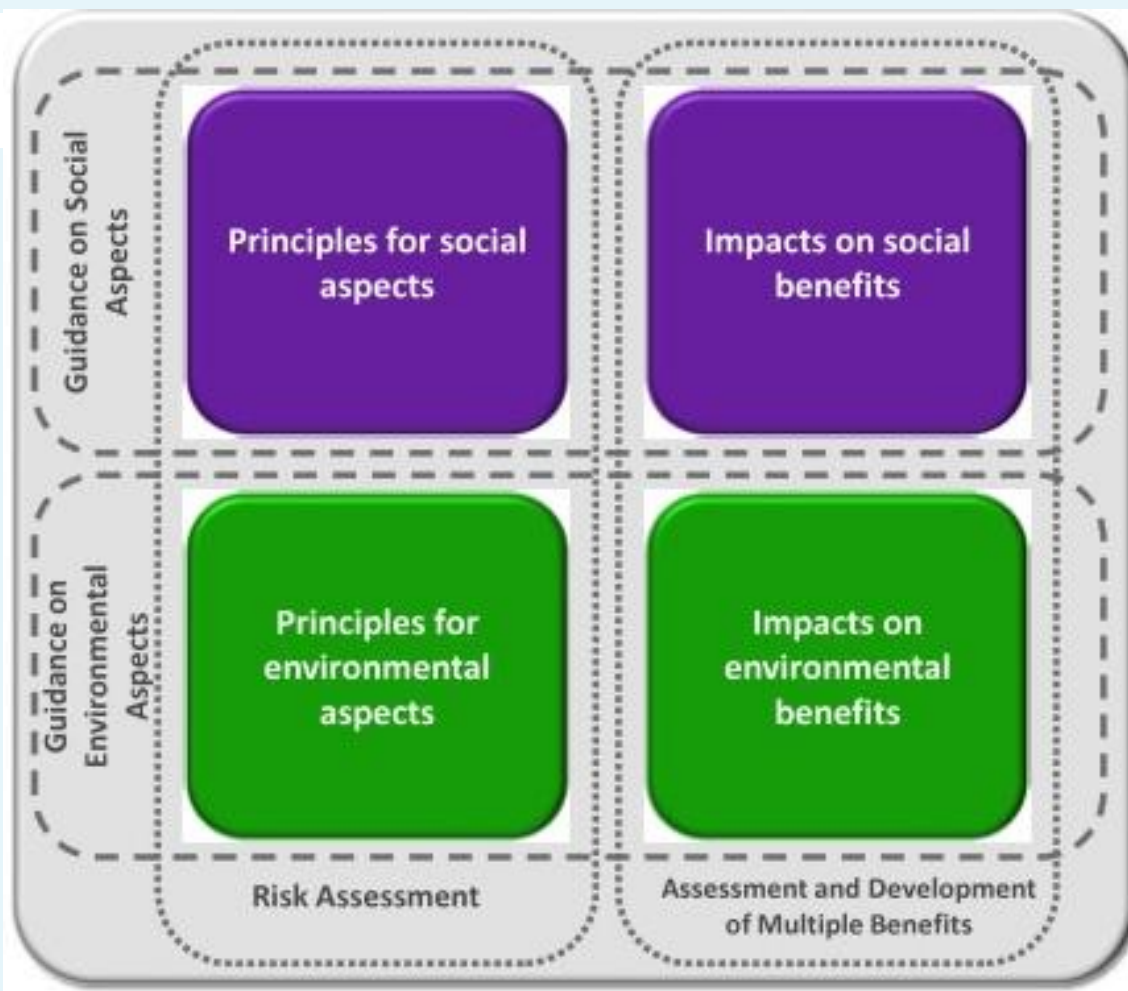

Multiple Benefits

- Cambridge workshop on multiple benefits (April 2010)
 - Identified priorities and need for safeguards
- CBD/UN-REDD workshop recommended how REDD+ contributes to the implementation of the CBD's work forest biodiversity
- Developing a framework for environmental safeguards
 - To identify globally relevant principles based on MEA & indicators and monitoring arrangements
 - Planning pilot testing in DRC

Rational for the Social and Environmental Principles

- Application of LCA text on safeguards
- Responsibility to uphold UN conventions, declarations and policies
- Application of UN Agency policies & procedures
