Colombia Facts

- Colombia is listed as one of the world's "megadiverse" countries, hosting close to 14% of the planet's biodiversity. (CBD)
 - 18 ecoregions and 65 ecosystem types (Humboldt Institute)
 - 61% of its surface is covered by forest, 53% is natural forest (IDEAM)
- 3 of the world's Biodiversity Hotspots: Biogeographical Pacific Chocó region, the Amazon river basin and the Andes mountains
- Seventh richest country in terms of water resources (FAO, 2003), after Brazil, Indonesia, Russia, India, Canada and China
 - High cultural diversity (90 indigenous ethnic groups)

DEFORESTATION

64.425.586
hectares of forests
(2.2%
no information)

58.635.323
hectares of forests
(3.3% no information)

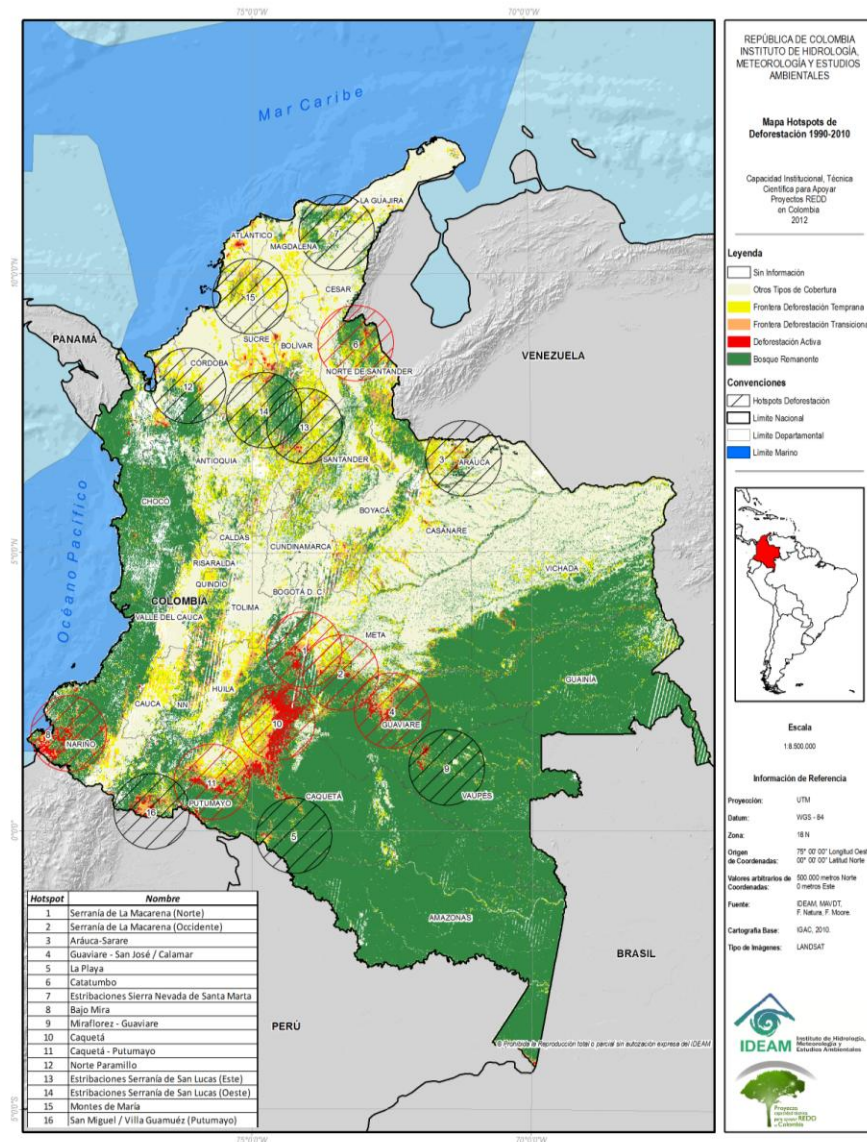

1990

2010

6,2 million ha
310,345 ha/year
16 deforestation hotspots

Together in one area, this would be more than
the total land area of Costa Rica, slightly less
than Latvia

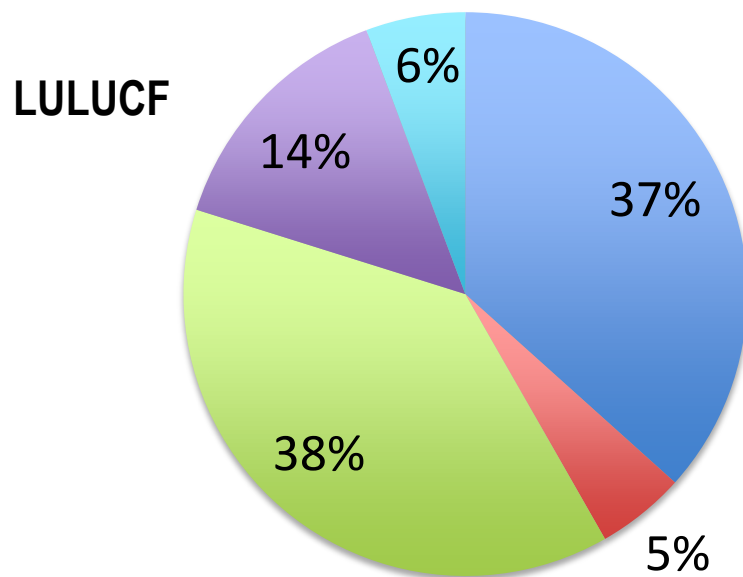

Colombia's Greenhouse Gas Emissions

CO₂ emissions (2004)

■ Energia ■ Industria ■ Agricultura ■ USCUS ■ Residuos

National Total
180.008,18 CO₂ e (Gt)

Colombia's commitments at the UNFCCC

- National Commitments (COP15/COP16) related to REDD+
 - **Zero deforestation in the Amazon region by 2020 with international support**
 - *Stopping largest deforestation hotspots.*
 - *Preserve the integrity of the Amazon Biome*
 - *The Amazon region – Priority for REDD+ Readiness*
 - **Expansion of protected areas in the Amazon**
 - *Expansion of Chiribiquete National Park*
 - *Zoning of the Forest Reserve Act 2 1959*

1. Organize and Consult

Total Cost: **USD 8.7 M**

Funding gap: ~ **11%**

Strategic Action Lines

- **Establishment of the Nacional REDD+ Board within the National Climate Change System and participation of stakeholders.**
- **Capacity building program for local communities and authorities**
- Institutional strengthening of REDD+ at a national and local level
- Communication Strategy for REDD+.
- Strengthening of participation mechanisms for indigenous peoples, afrocolombian communities and peasant communities.
- Protocol for Free Prior Informed Consent
- Information exchange and grievance mechanism

MinAmbiente
Ministerio de Ambiente
y Desarrollo Sostenible

**PROSPERIDAD
PARA TODOS**

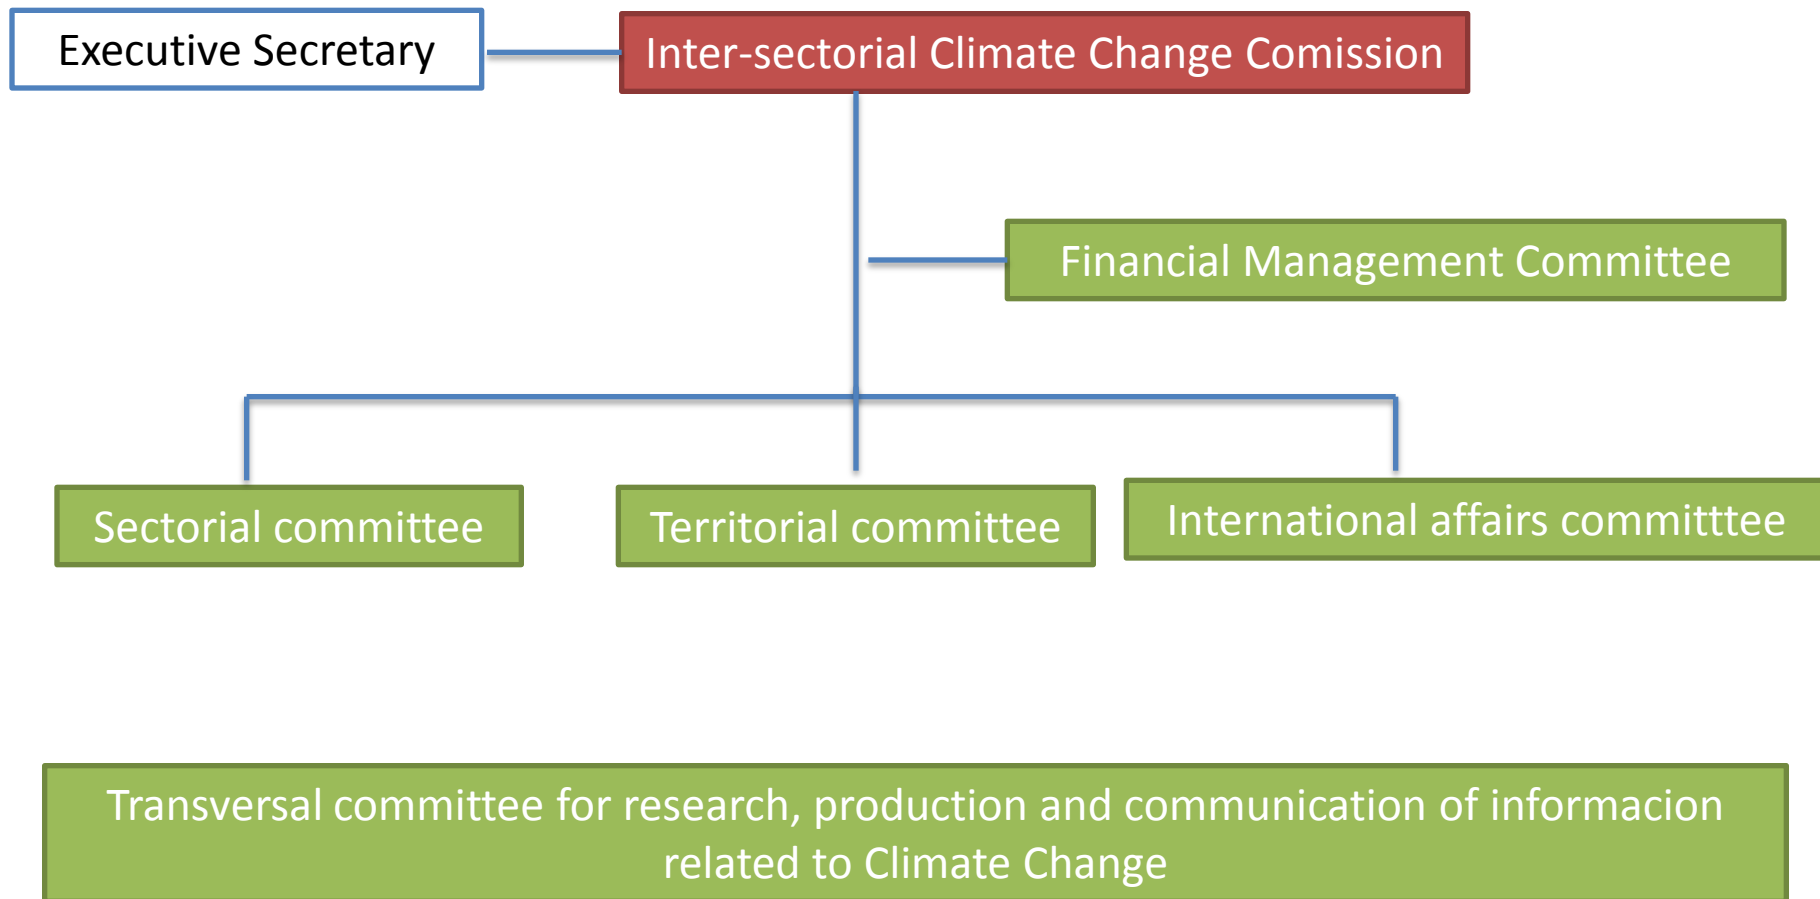

Component 1 - UNDP

- i) Support the joint constitution and operation of the National REDD+ Round table (Criterion, guidance, regulation)
- ii) Participative interinstitutional and community evaluation of challenges and opportunities of REDD+ in indigenous territories and other forest dependent communities.
- iii) Key stakeholders of indigenous, afro-descendant and peasants communities are trained in REDD+, as well as regional environmental authorities.

PROSPERIDAD
PARA TODOS

Round table on Environment and Climate Change with Indigenous peoples of Amazon Region (MIAACC)

Designated in April 2012

- REDD+ agendas for SESA, communication strategy, R-PP revision with delegates of the six Provinces of Amazonian Region.
- Environmental agendas with the Ministry.
- Six sessions already.

Participation Platform with Afro-colombian communities of Pacific Region

Delegates from the 4 Provinces in the Pacific Region

- October 2012 – Review of REDD+ Agenda with Afrocolombian communities.
- February 2013 – Meeting with World Bank Mission and revision of agreements for REDD+ Process.
- March 2013 – R-PP review

National Meeting of National REDD+ Strategy Preparation (Bogotá D.C. May 9 - 10, 2013)

- Targeted Support UN-REDD+ (USD 50.000)
- PNUD - Fondo Acción - GIZ
- 107 persons participated
- Results:
 - ✓ Recommendations to update of R-PP ENREDD+ and presentation of R-PP 7.1. version .
 - ✓ Proposal on conforming inter-ethnic Roundtable.
 - ✓ Ad Hoc Working Group on R-PP

2. Preparation of the National REDD+ Strategy

Total cost: **USD 8.17 M**

Funding gap: **~ 31%**

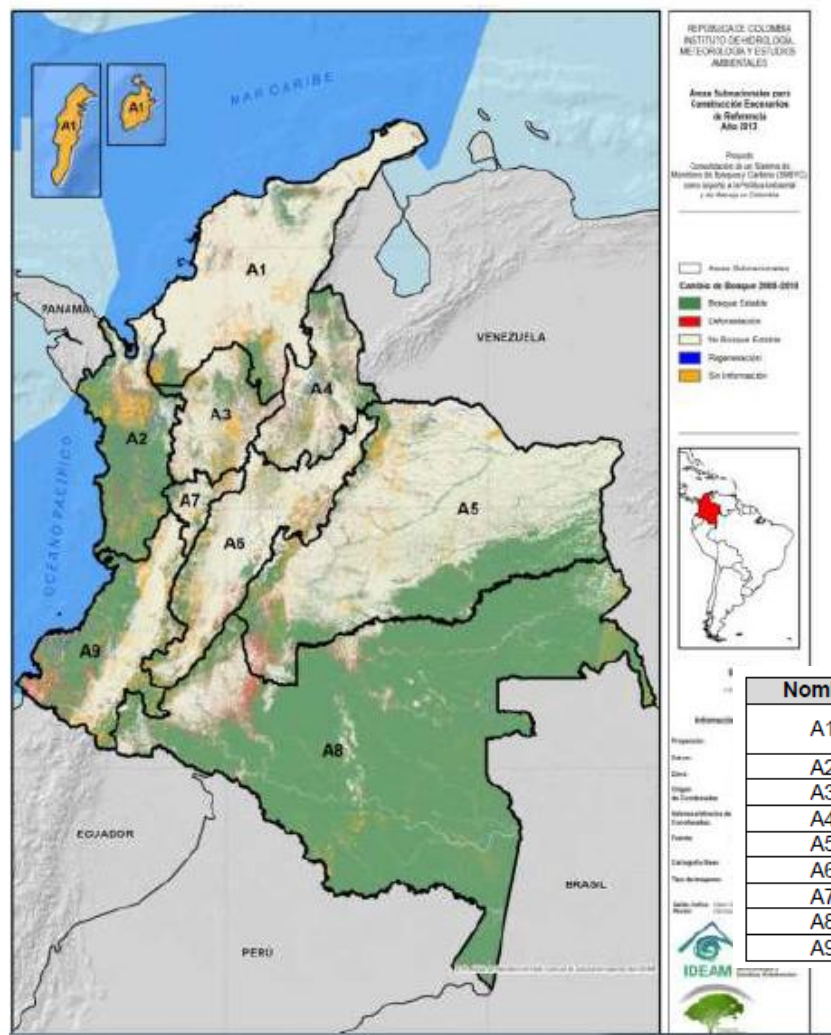

Strategic Action Lines

2a

- Land tenure analysis in hotspots of deforestation.
- Analysis of sectoral policies and relationship with deforestation.
- Identification of regional drivers and regional pacts.

2b

- Prioritization of strategy options at the national and subnational levels.

Subnational implementation

9 regions

- Amazon
- Orinoquia
- South Pacific
- North Pacific
- Caribbean
- Andes (4 regions)

3. Develop Reference Levels

Total cost: USD 3.08 M

Funding gap

~27%

Strategic Action Lines

- Subnational area definition
- **Generation and compilation of primary data**
- **Activity data and emission factors**
- Agent and driver analysis of deforestation
- **Model and Project emissions trends for each region and a consolidated national projection for 5, 10 and 20 years**
- Pilot reference level in Northern Amazon and Regional RL for the Amazon

MinAmbiente
Ministerio de Ambiente
y Desarrollo Sostenible

**PROSPERIDAD
PARA TODOS**

Component 3. Reference levels– FAO

- i) Development of knowledge and technical capacity for reporting Greenhouse Gases, at national and regional levels.
- ii) Construction of Sub-national reference levels and linkage with national reference level.
- iii) Improvement of methodology for subnational reference levels.

MinAmbiente
Ministerio de Ambiente
y Desarrollo Sostenible

PROSPERIDAD
PARA TODOS

4. Design of monitoring systems

Total cost:

USD 7.0 M

Funding gap: ~27 %

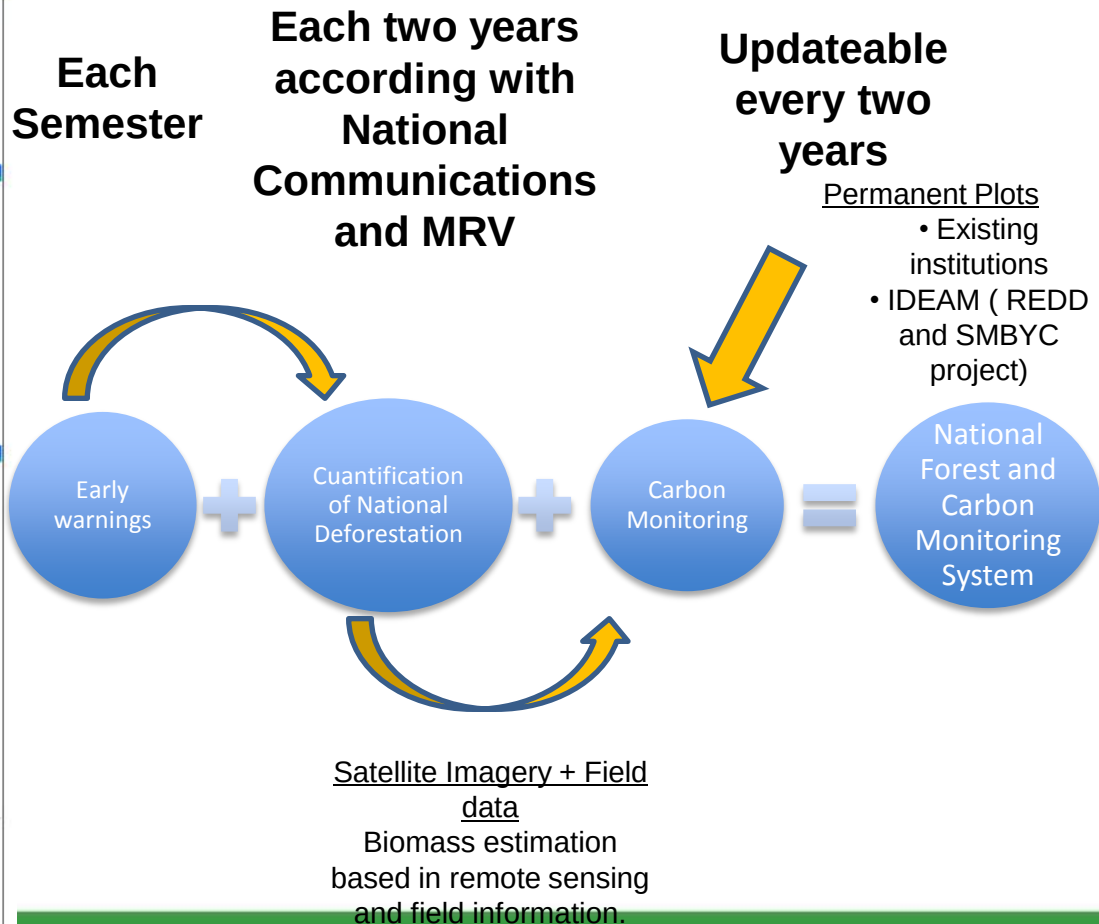

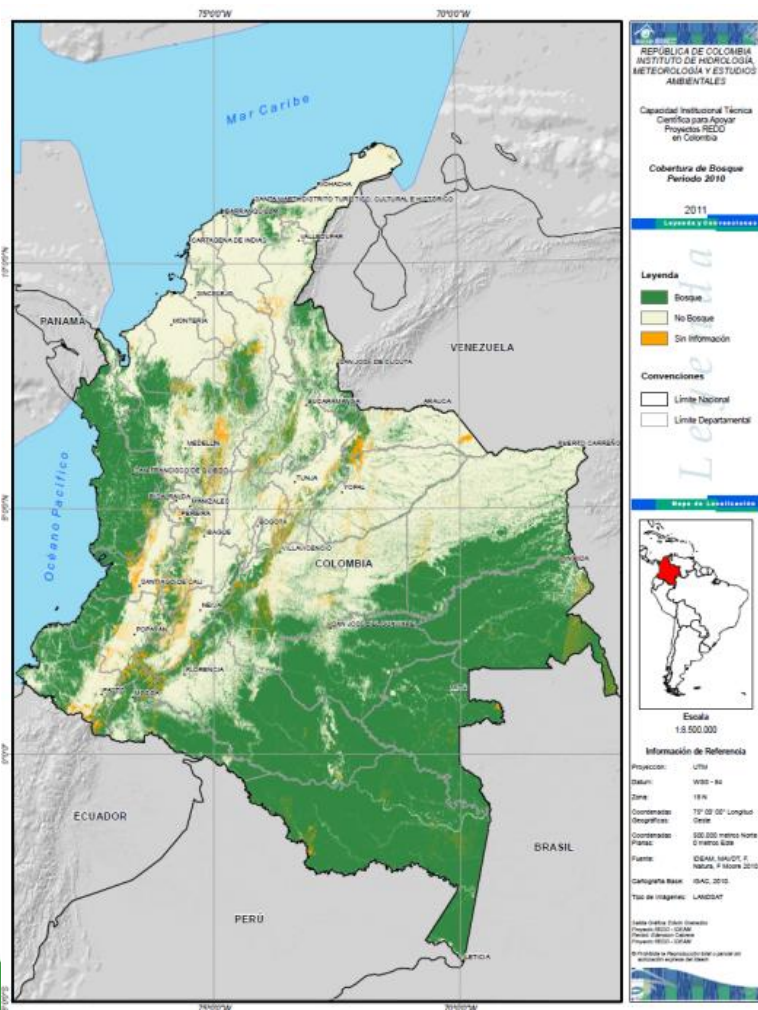

Strategic Action Lines

4a

- **Institutional arrangements and sustainability of the monitoring system**
- Development of a Sub-system for Carbon Monitoring
 - **National Forest Inventory** / Permanent Monitoring Plots
- Development of a Sub-system for Monitoring Deforestation
- **Development of a Sub-system for Monitoring Degradation**
- **Community participation in monitoring**
- Technological platform

4. Design of monitoring systems

Total cost:

USD 7.0 M

Funding gap: **~27%**

Strategic Action Lines

4b

- **Safeguard Information Systems**
 - Identification of pertinent environmental and social indicators
 - Identification of SIS components to monitor cobenefits
 - Information module on cobenefits
- **Linkages with SIAC and DANE**

MinAmbiente
Ministerio de Ambiente
y Desarrollo Sostenible

**PROSPERIDAD
PARA TODOS**

Component 4a. Monitoring, Reporting and Verification- FAO & UNEP

Forest monitoring System strengthened, participative, decentralized and developed considering the following REDD+ requirements.

- i) Plan for the implementation of the national forest monitoring System.
- ii) Roles coordination mechanisms are defined (legal, technical and political framework) in the context of MRV – National and Regional scale.
- iii) Sub-system for degradation monitoring.

Component 4. (4b) Information system on safeguards and other non- Carbon benefits- UNEP

- i) Safeguards information System designed. Indicators, Mechanism/Access – Additional module on co-benefits.
- ii) Identification of monetary and non-monetary benefits for an actual scenario and 3 variants of rural development (Low, medium, high).
- iii) REDD+ Sub-National areas are prioritized based in their co-benefits, based on environmental and social benefits and carbon.
- iv) Institutions strengthening on spatial analysis of REDD+ benefits.

6. Program Monitoring and Evaluation Framework

Total cost

USD 0.5 M

Funding gap:

0%

Strategic Action Lines

- Proposed M & E program
- Socialization and adjustment of the M & E program
- Development of performance indicators
- Development of performance reporting platform (web)
- External Audit

REDD+ Coordination

MinAmbiente
Ministerio de Ambiente
y Desarrollo Sostenible

**PROSPERIDAD
PARA TODOS**

REDD+ Coordination

- The challenge of coordination is a necessary one
- It prompts the government to be on the driver seat and set the vision
- Coordination mechanisms:
 - Institutional: Once the National REDD+ Board is defined
 - Donors: Cooperation Roundtable established in 2012, REDD+ as a sub-group.
 - Ad-hoc coordination groups by component
 - Leader: Office of International Affairs at Ministry of Environment
