

REDD+

Introduction

Tim Clairs, UNDP
tim.clairs@undp.org

GTZ/UNDP Workshop

14th International Anti Corruption Conference

13 November 2010

Presentation Outline

What is REDD+?

REDD+ Readiness

Who is doing what?

What is REDD+?

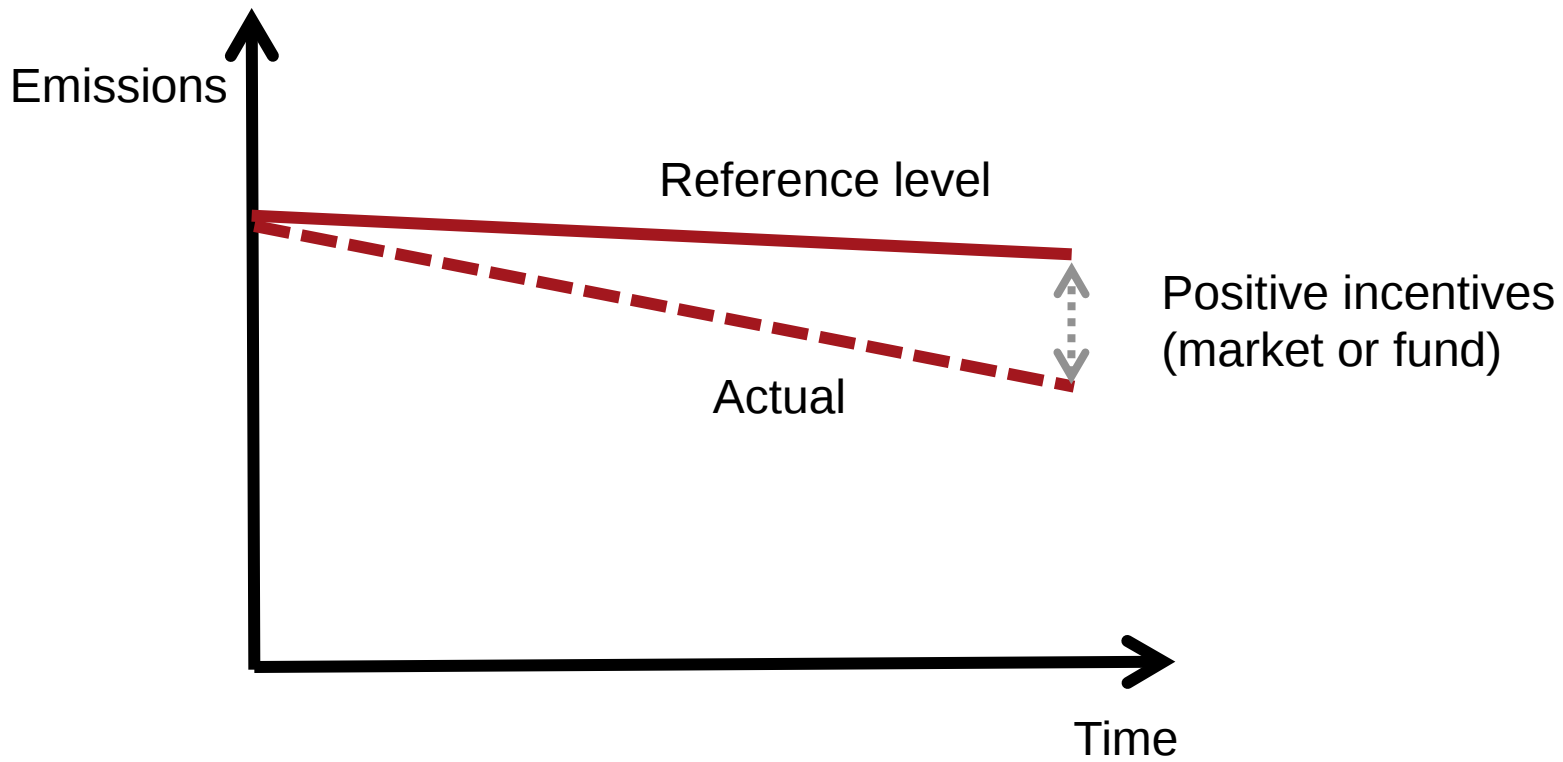

Reducing Emissions from Deforestation and forest Degradation in developing countries

↪ Each activity may involve different actors, and different governance and corruption risks

Element		Activity
Reducing carbon emissions	1.	Reducing deforestation
	2.	Reducing forest degradation
Removals - absorbing and storing carbon (the 'plus')	3.	Conserving forest carbon stocks
	4.	Sustainable management of forests
	5.	Enhancement of forest carbon stocks

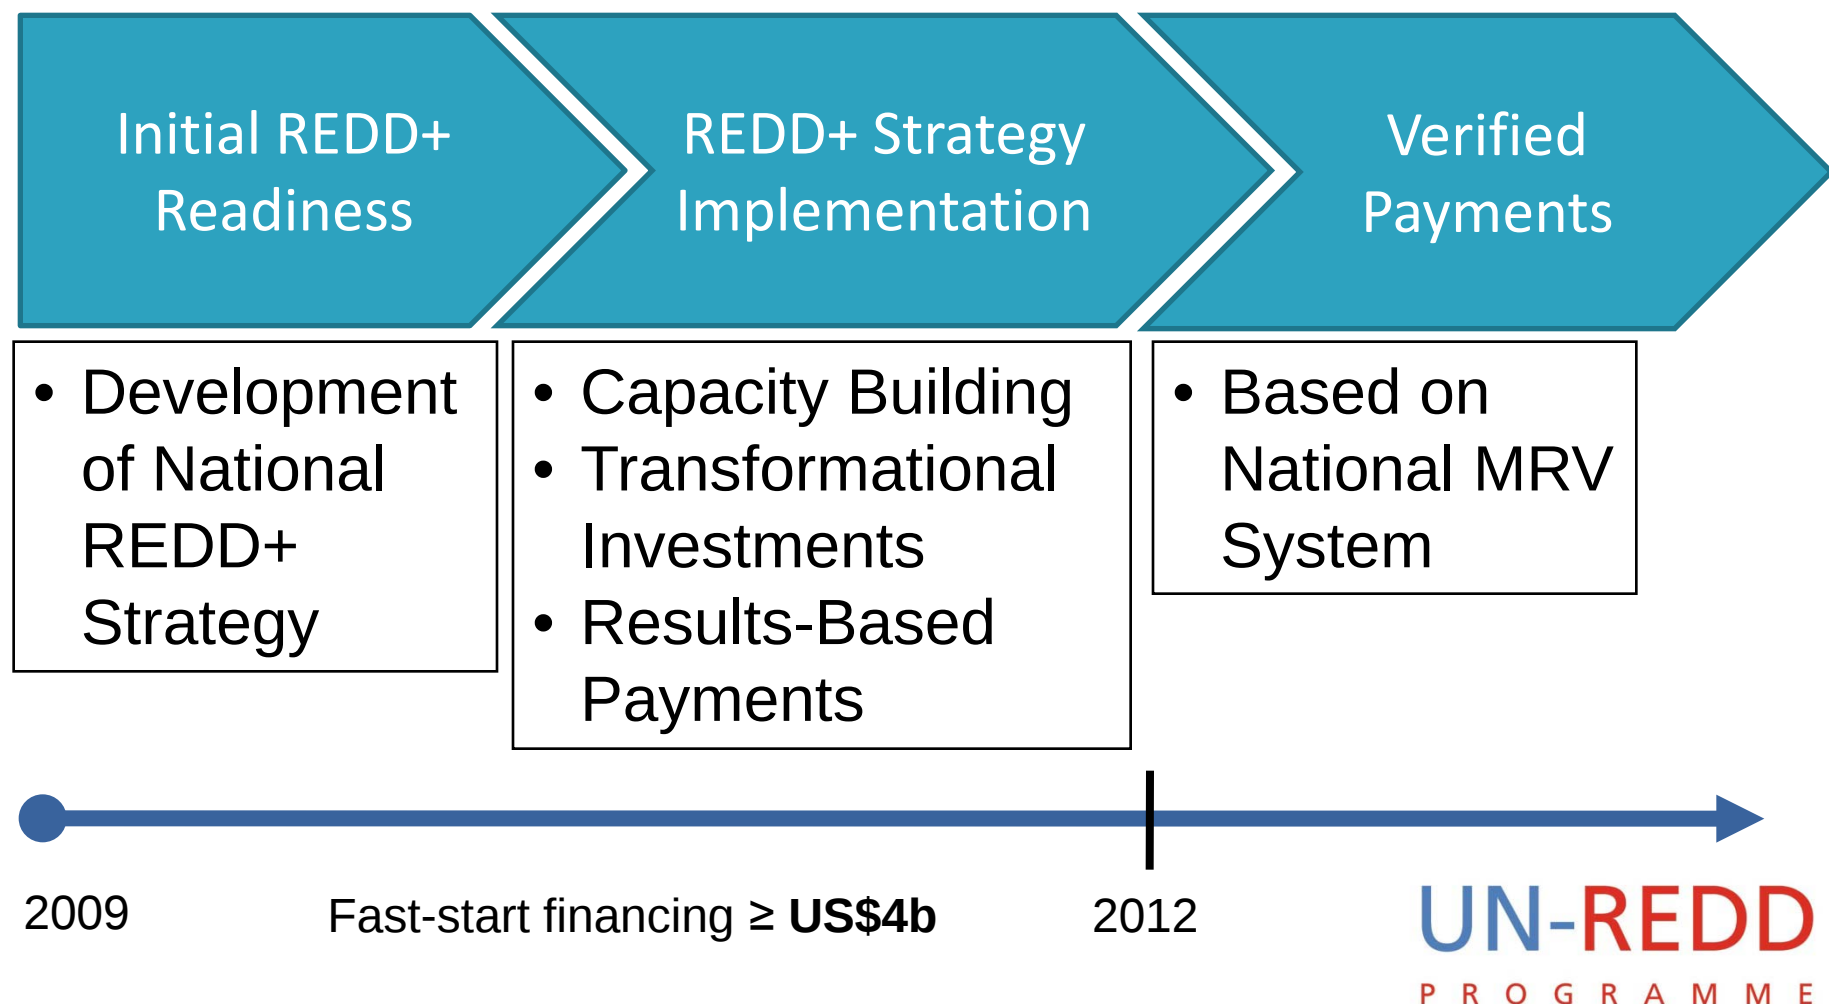

REDD+ Theory

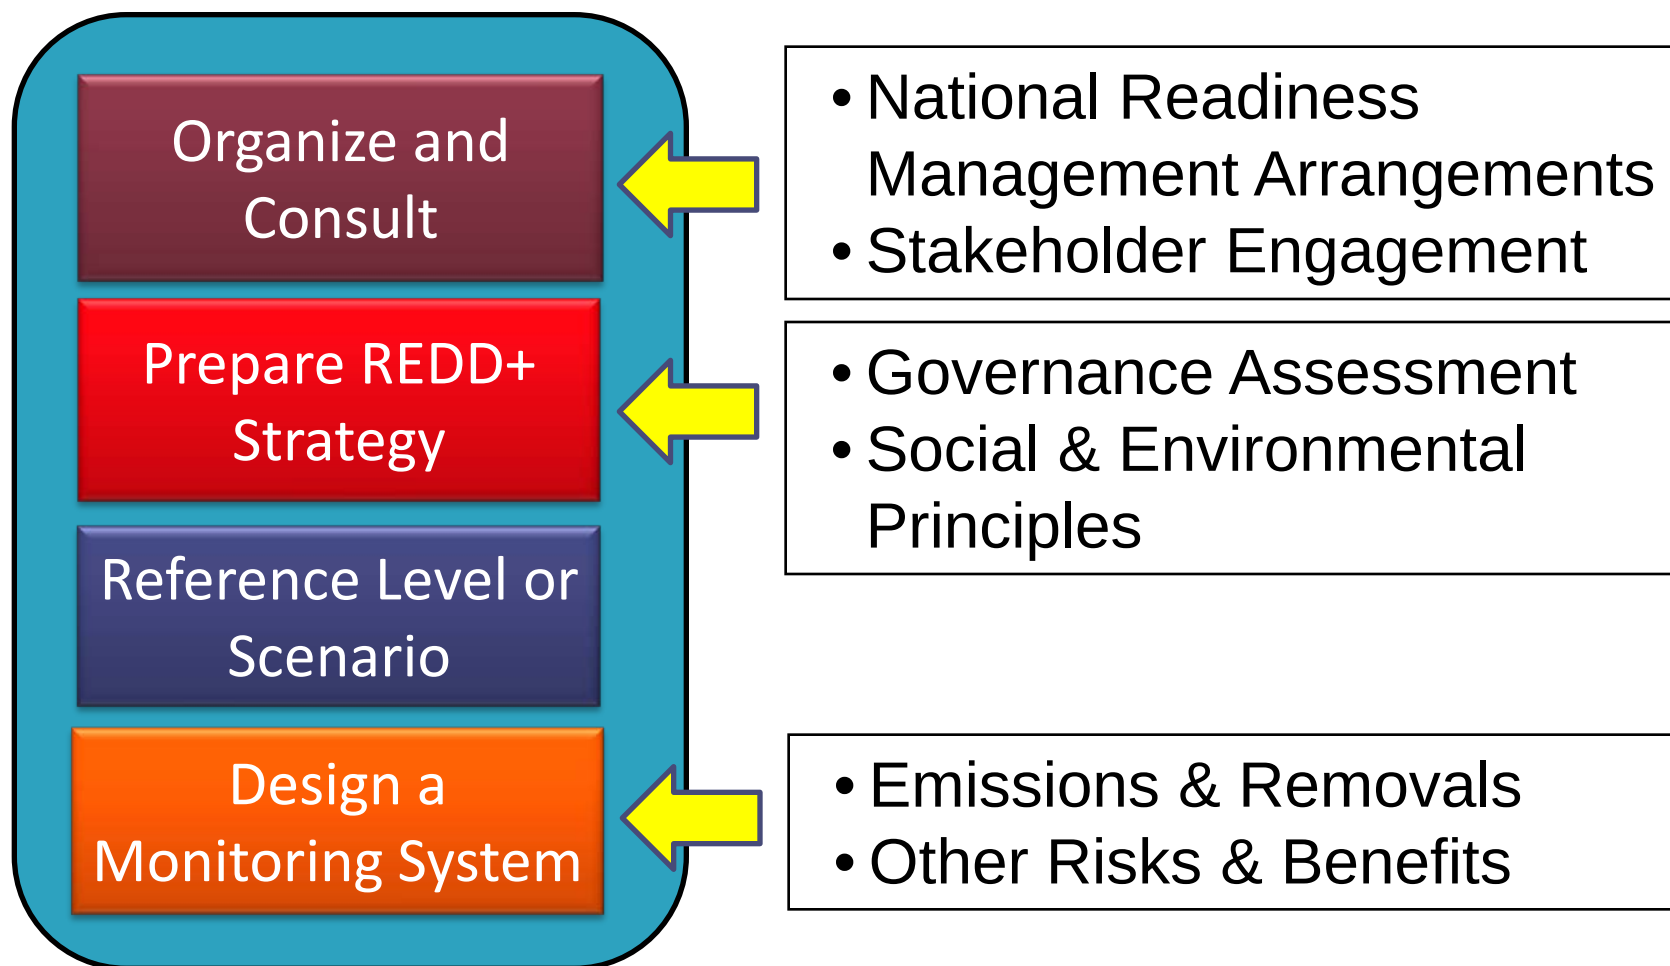

Phased Approach

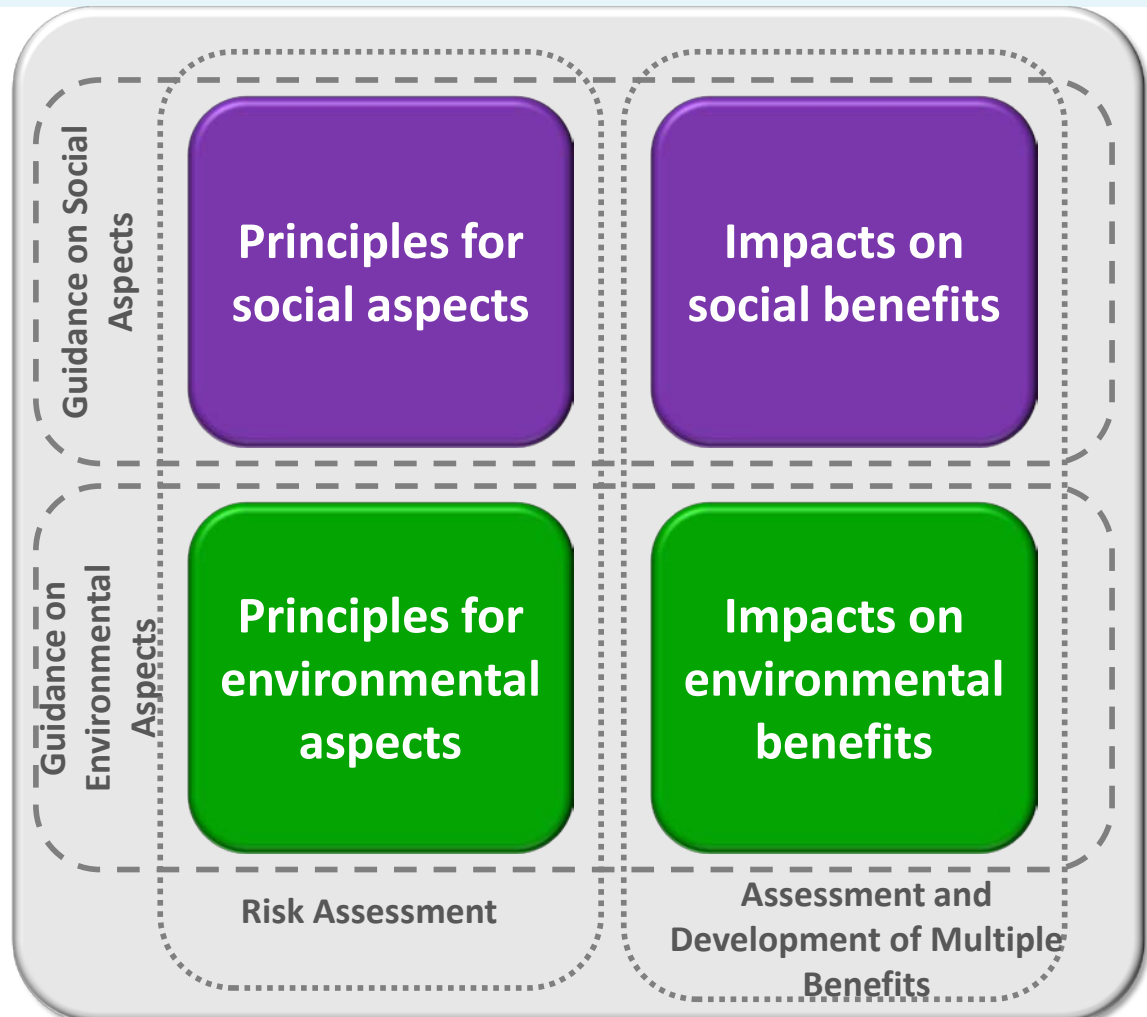

Initial REDD+ Readiness

Social and Environmental Principles

- REDD +
Negotiating text
(‘LCA text’) on
safeguards
- UN Declarations &
conventions
- Beyond do not
harm

Who is doing what ?

- REDD + countries
 - Governmental institutions (existing and new, national to local)
 - Local stakeholders and civil society
 - Private sector
- Multilateral and bilateral support
- UNFCCC
- Interim REDD+ Partnership
- International non-governmental organizations

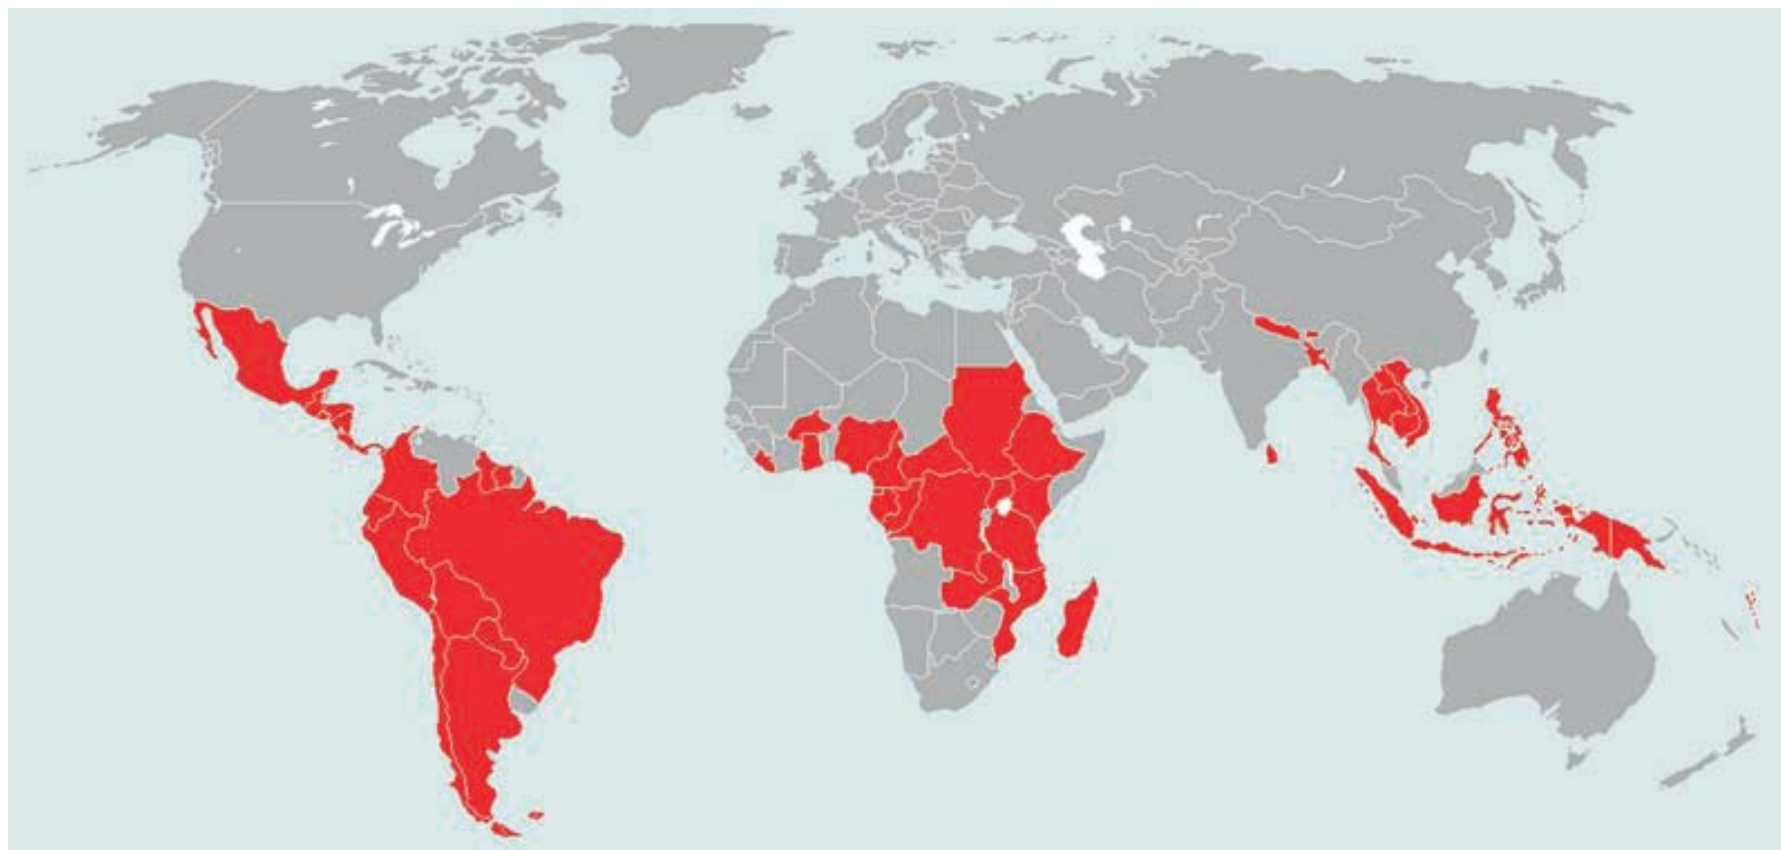

Multilateral Initiatives

1. UN-REDD Programme
2. Forest Carbon Partnership Facility (FCPF)
3. Forest Investment Program (FIP), part of the Climate Investment Fund
4. Congo Basin Forest Fund (CBFF)
5. GEF

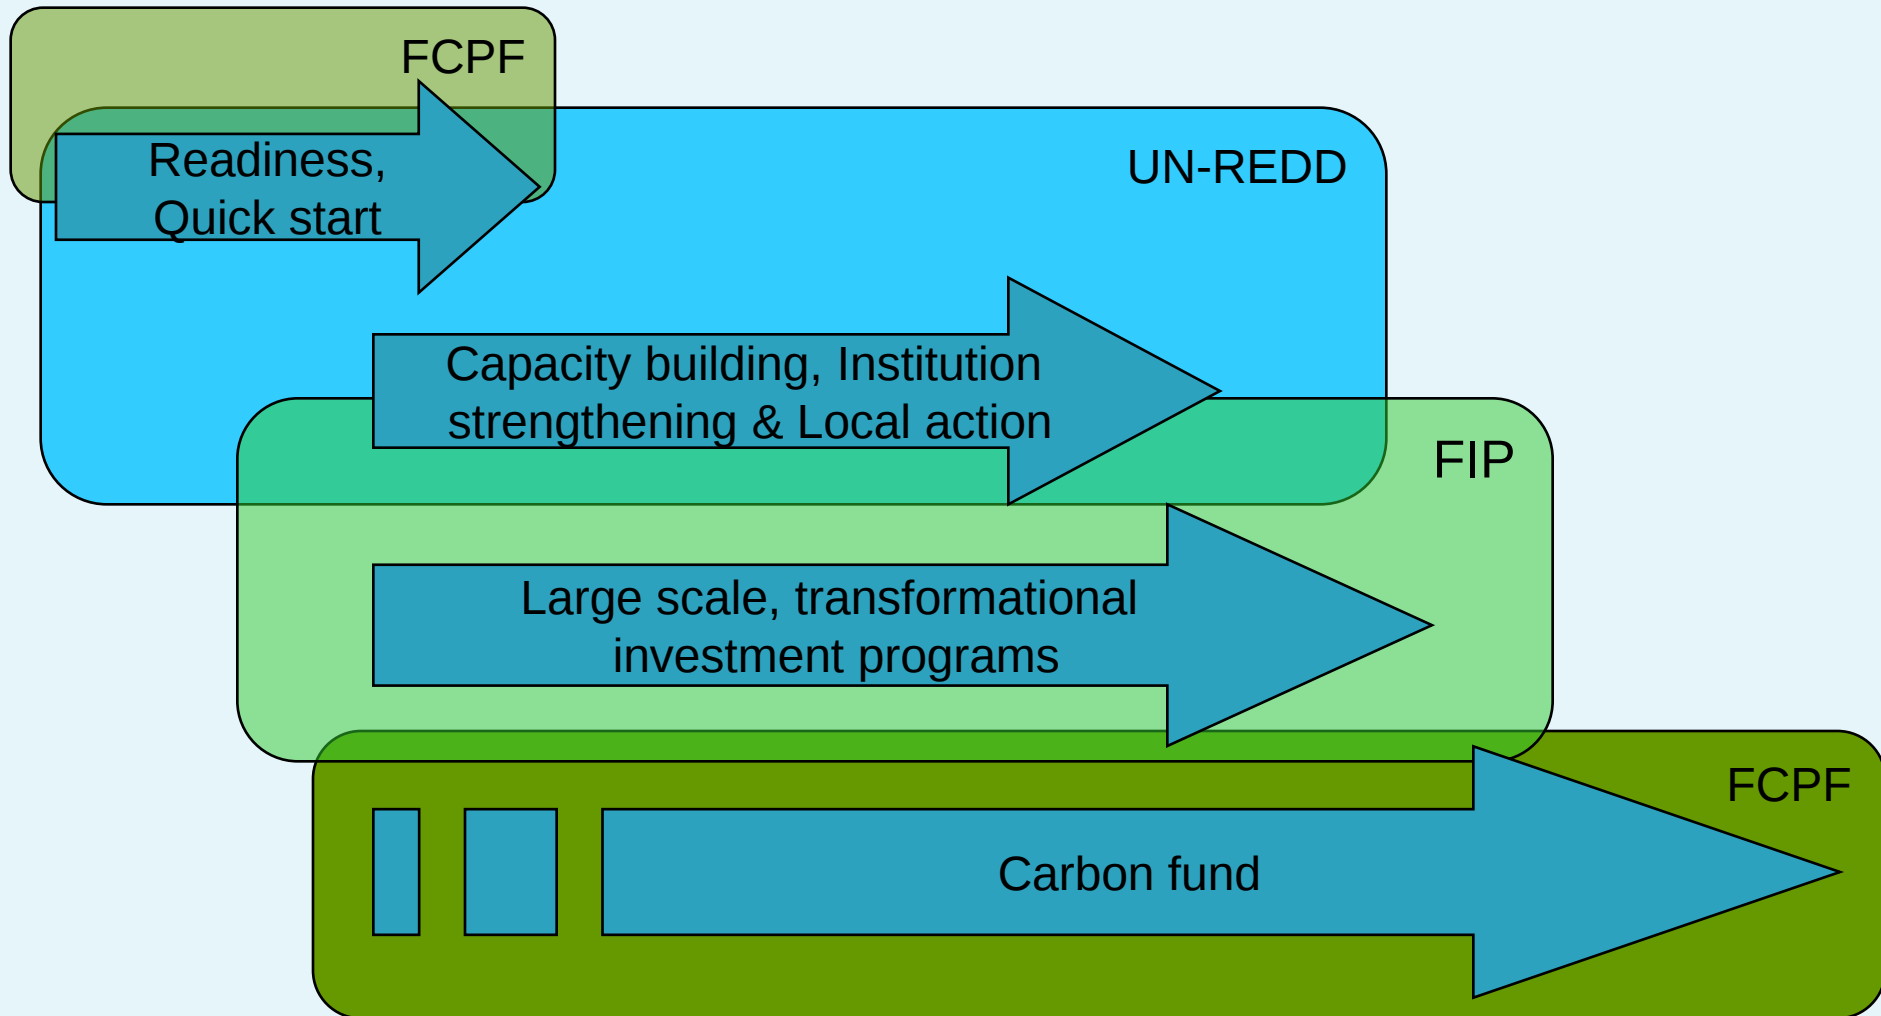

UN-REDD/FCPF/FIP Countries

Who is doing what? UN-REDD, FCPF, FIP

Bi-lateral Initiatives

- Several bi-lateral initiatives are also underway in several countries.
- Main sources of funding include:
 - Norway (Brazil, Indonesia, Guyana, Tanzania, Mexico)
 - Australia (Indonesia, Papua New Guinea)
 - Germany (Philippines, Ecuador and others)
 - Domestic resources

www.reddpluspartnership.org

The image shows a screenshot of the REDD+ Partnership website. The header features the REDD+ Partnership logo on the left, which consists of the text "REDD+" in a large, bold, sans-serif font, with "Partnership" in a smaller font below it. To the right of the text is a circular logo with a white plus sign inside, surrounded by four colored segments (red, yellow, green, blue). To the right of the logo is a colorful illustration of a landscape with rolling hills in shades of green, yellow, and blue, and several stylized trees with colorful leaves. A small search bar is visible in the top right corner of the header.

Below the header, the main content area is divided into three columns. The left column contains a navigation menu with the following items: **REDD+ Partnership**, **About**, **Work program**, **Countries**, **Database**, **Documents**, **Partnership meetings**, **Events**, **News**, **Feedback**, **Contacts**, and **Links**. The middle column contains the main content, which is titled **REDD+ Partnership sharing information**. Below the title, there is a paragraph of text: "The website of the REDD+ Partnership is the entry point for essential information on initiatives to reduce emissions from deforestation and forest degradation (REDD+) in developing countries." This is followed by another paragraph: "Through this platform REDD+ partners share documents, including the outcomes of the Oslo Climate and Forest Conference, and the International Conference on the Major Forest Basins (Paris) – both held in 2010." Below this, there is a paragraph: "Partner countries will also use this website to exchange information and views related to REDD+ activities seeking to scale up REDD+ actions and finance, in order to take immediate action, including improving the effectiveness, efficiency, transparency and coordination of REDD+ initiatives and financial instruments to facilitate among other things knowledge transfer, capacity enhancement, mitigation actions and technology development and transfer." At the bottom of the middle column, there is a paragraph: "The REDD+ Partnership website can be accessed through the [UNFCCC REDD Web Platform](#)." The right column contains a **LOGIN** button, a **LINKS** section with a list of links: [UNFCCC REDD Web Platform](#), [Oslo Climate and Forest Conference](#), [International Conference on the Major Forest Basins](#), and [Climate Finance Options](#), followed by a **PARTNERSHIP MEETINGS** section with a list of meetings: [International Workshop - Enhancing Coordinated Delivery of REDD+: Emerging Lessons, Best Practices and Challenges \(Component 4\)](#), and a date and time: "REDD+ Partnership 26 November 2010 09:00 Mexico, Cancun".

REDD+ Partnership

English

REDD+ Partnership

REDD+ Partnership sharing information

The website of the REDD+ Partnership is the entry point for essential information on initiatives to reduce emissions from deforestation and forest degradation (REDD+) in developing countries.

Through this platform REDD+ partners share documents, including the outcomes of the Oslo Climate and Forest Conference, and the International Conference on the Major Forest Basins (Paris) – both held in 2010.

Partner countries will also use this website to exchange information and views related to REDD+ activities seeking to scale up REDD+ actions and finance, in order to take immediate action, including improving the effectiveness, efficiency, transparency and coordination of REDD+ initiatives and financial instruments to facilitate among other things knowledge transfer, capacity enhancement, mitigation actions and technology development and transfer.

The REDD+ Partnership website can be accessed through the [UNFCCC REDD Web Platform](#).

UN-REDD Programme: Governance Work

CSO & IPs engagement & capacity support

- Free, Prior, Informed Consent

Governance Work Area

- 
- Multi-stakeholder, country-led governance assessments
 - Policy & institutional support
 - Monitoring of governance
 - Social standards & risk-assessment

Transparent, Equitable, Accountable Management of REDD+ Payments (TEAM REDD+)

- 
- Anti-corruption measures
 - Benefit Distribution Mechanisms

United Nations Development Programme

STAYING ON TRACK:
**TACKLING CORRUPTION RISKS
IN CLIMATE CHANGE**

UN-REDD Programme: Anti-Corruption Scope of Work

- Tailored, country-specific responses
- Sharing responsibility for managing corruption risks
- Working from a risk-based approach
 - Facilitate in-country governance/corruption assessments undertaken through multi-stakeholder processes
 - Risk Assessment Tool for social standards : Assess integrity of fiduciary systems, transparency and accountability risks (and other governance and livelihoods criteria)
- Activities to include :
 - Support multi-stakeholder consultations in design of national REDD+ frameworks
 - Support civil society in oversight activities
 - Train Anti-Corruption units on REDD+, and REDD+ institutions on anti-corruption
 - Economic and social impact assessments to help determine vested interests
 - Ensuring independent, effective and accessible recourse and complaints mechanism
